Adiantum capillus-veneris	0017	Equisetum fluviatile	0713
Anogramma leptophylla	0115	E. hyemale	0714
Asplenium adiantum-nigrum†	0185.1	E. palustre	0717
A. ceterach	0191	E. pratense	0718
A. marinum	0473	E. ramosissimum	0719
A. obovatum lanceolatum	0189	E. sylvaticum	0720
A. onopteris	0185.2	E. telmateia	0721
A. ruta-muraria	0192	E. variegatum	0723
A. scolopendrium	1466	Gymnocarpium dryopteris	2050
A. septentrionale	0193	G. robertianum	2054
A. trichomanes agg. *	0194.1	Huperzia selago	1217
A. trichomanes pachyrachis	0194.3	Hymenophyllum tunbrigense	1000
A. trichomanes quadrivalens	0194.2	H. wilsonii	1001
A. trichomanes trichomanes	0194	Isoetes echinospora	1043
A. viride	0195	I. histrix	1044
Athyrium distentifolium	0210	I. lacustris	1045
A. filix-femina	0211	Lycopodiella inundata	1216
Azolla filiculoides	0223	Lycopodium annotinum	1214
Blechnum spicant	0244	L. clavatum	1215
Botrychium lunaria	0248	L. lagopus	
Cryptogramma crispera	0586	Ophioglossum azoricum	1381.1
Cystopteris diaphana		O. lusitanicum	1380
C. dickiana	0602	O. vulgatum	1381.2
C. fragilis	0603	Oreopteris limbosperma	2051
C. montana	0604	Osmunda regalis	1411
Diphasiastrum alpinum	1213	Phegopteris connectilis	2053
D. x issleri	2277	Pilularia globulifera	1474
Dryopteris aemula	0660	Polypodium cambricum	1544.1
D. affinis agg. *	0662	P. interjectum	1544.3
D. affinis†	0662.1	P. vulgare	1544.2
D. borrieri †	0662.2	Polystichum aculeatum	1546
D. cambrensis †	0662.3	P. lonchitis	1547
D. pseudodisjuncta †		P. setiferum	1548
D. carthusiana	0666	Pteridium aquilinum †	1619.1
D. cristata	0663	Selaginella selaginoides	1888
D. dilatata	0661	Thelypteris palustris	2052
D. expansa	2274	Trichomanes speciosum	2075
D. filix-mas	0665	T. speciosum gametophyte	2075
D. oreades	0659	Woodsia alpina	2232
D. submontana	0667	W. ilvensis	2233
Equisetum arvense	0712		

†Species in strict sense. If uncertain of taxon please record as an aggregate*. Names follow Stace (2010).

Please record infraspecific taxa on reverse of form and take voucher specimens/photographs for confirmation.

(Numbers in righthand column are Biological Records Centre reference numbers that are used by the BSBI.)

Filling in the BPS Recording form

- Take care to fill in all the information requested in the boxes
- If recording in an **area** not just **one spot** state clearly what this is
- Be aware of boundaries (Vice-counties) and the national grid lines
 - where possible use 1 form per 1km square on the OS map
- For species listed in **bold**, unlisted alien taxa or hybrids give an 8 figure grid reference per plant (eg. SH 7558,6830) and/or estimate the area occupied and numbers. Use the space below to capture this information.
- Grid references can be made in the field by accurate map reading, GPS, or can be worked out later using <http://wtp2.appspot.com/wheresthepath.htm>
- Given a grid reference it is possible to get the Vice-County from <http://herbariaunited.org.gridrefVC/>
- When you have completed the form please send it to the BPS recorder and also the appropriate BSBI recorder - their contact details can be found at <http://www.bsbi.org.uk/recording.html> or via the BPS recorder
