## INTRODUCTION

This index does not contain names of ferns seen during meetings. Current administrative counties and unitary authorities are used.

For ease of use, the index has been split into categories. See Contents list below. Prior to 1984, when *Pteridologist* was launched, the *Bulletin* contained general articles on all aspects of pteridology. These have been included under 'Miscellaneous'.

Page references are shown as Volume (Number): page.

Name/centre for national field meetings is shown in **bold type**.

In 'People' section **bold type** indicates that there is a photo.

The year in which visits and events took place generally corresponds to volumes of the *Bulletin* as follows:

1(1) 1973	2(1) 1979	3(1) 1984	4(1) 1990	5(1) 1996
1(2) 1974*	2(2) 1980	3(2) 1985	4(2) 1991	5(2) 1997
1(3) 1975	2(3) 1981	3(3) 1986	4(3) 1992	5(3) 1998
1(4) 1976	2(4) 1982	3(4) 1987	4(4) 1993	5(4) 1999
1(5) 1977	2(5) 1983	3(5) 1988	4(5) 1994	5(5) 2000
1(6) 1978	–	3(6) 1989	4(6) 1995	5(6) 2001

\* repaginated for index (subtracting 44 from page number in index gives actual page number in this issue)
